Illustration with work of fiction

The novella, which I have recently read is "**The pearl**". It has following setting:-

1) **place:**

The story took place in small coastal village called la paz Mexico. It was a small village where kino did fishing for his income.

2) **Time:** The time was not specified but it was written in 1990s.

3) **Environment:** Environment of this novella changes with time. At the start of this novella, There was a beautiful morning, In mid Environment was tense

Q. No. 3 (b) and at last it was ~~Iraq~~ sad environment.

overall Effect/conclusion: Setting affects the mood and tone of novel. Such as in this novella, mood was ~~hap~~ happy at start then sad at the end. It is shown that kino, the pearl diver, found the pearl but his opposition such as villager and doctor were not happy and attacked him several time. At end he threw the pearl back to sea. Writer always sets the setting beautifully so that the reader enjoys it.

Q. No. 4 (Page 1) "Women Empowerment"

Education is neccessary for all the individual because it provides knowledges gives direction and build the charactor.

Someone said;

"Education is powerful weapon, which you can use to change the world."

Women Empower ment means girl's education. It is important for girls and for a country. Education improves their skill and empowerment. But in some country women face so many obstacles.

Women empowerment is neccessary because it improves their skill, builds chereactor, increases knowledge and increase their parcitipant.

Education is necessary for all because it develop our skill and makes us capable of doing practical job. But in some country, boys are given more opportunities to get education while women or girls are not. They think, their main work is to take care of house. But it is important to provide equal opportunities to both. A skillful woman knows how to deal with challanges and how to solve the problem.

Q. No. 4 (Page 2)

Education helps to develop the charactor. If a ~~woo~~ girl goes to school every day and here she learn more about world, changes her personality with time to time. Education gives good charactor to woman and help here to deal with her challenges. But in some country, woman are not given equal opportunities. A famous person said;

"If you educate boy, you educate a individual. But if you educate a girl, you educate the whole society"

Current condition of women is worse. Women struggle a lot. In education institute, they are consider lower and gender discrimination is more common. Which dis encourages them toward education. In health institution such as hospital, they face several challanges such as not giving efficient treament to them which increases their death rate.

If a woman is uneducated, she is not financially independence. She struggles to complete her essential things and struggle to manage her life ~~pout~~ properly. She does not partici pate in any activities. Due to gender discrimination, women do not participate in politic activities.

Q. No. 4 (Page 3) Some one said;
"Low aim is a crime"
To overcome all these challanges. such as provide them ~~with~~ equal opportunities in all field of life. Education is important for all the individual so it is important to educate a woman. ~~It~~ Because it increases knowledge and build the character. Education make a woman confident. It is important to provide them practical knowledge. Some said;
"Education without practical knowledge is like flower without fragance".
Gender discrimination discourage the woman to participate. Government should implement the laws to support the women and provide them safety.
Some one said;
"women participant is neccessary for a country to develop economically"
It is important to provide equal opportunities for woman in education and health institute.
In conclusion i would like to say women ~~environ~~ empowerment is important for a country. Education ~~should~~ plays important role for women empowerment.
